CATALOGUE

Greenhouse and
Bedding Plants.

Hardy Herbaceous Perennials
and Hardy Shrubs,
Flower Seeds, and
Vegetable Seeds. 

WOODSTOCK, VERMONT.

MAIL ORDERS.

SEEDS. Vegetable Seeds, in packets and ounces, will be forwarded, postage paid, to any postoffice in the United States, at prices quoted in this catalogue. On peas and beans add 5c per pint and 10c per quart; and on corn add 4c per pint and 8c per quart, for postage.

PLANTS. Small plants selected from this catalogue will be sent by mail if so desired, postage paid; but we would advise our customers to have plants shipped by express, as larger and better plants can be sent, and extras will be added to cover express charges. We are careful in our shipment of plants. Plants offered by us are carefully grown, and are strong and healthy. We make no charge for packing, boxing, etc., and pack as lightly as possible, so as to reduce cost of carriage.

REMITTANCES may be made by bank draft, postoffice or express money order, or registered letter. Orders from parties unknown to us will be sent C. O. D., unless accompanied by satisfactory references.

WHEN ordering seeds or plants by mail you are requested to be particular to write your name, postoffice, county and state, plainly, as delays are occasioned by such omission.

Alba. Pure white lily-shaped, fragrant flowers; borne in large clusters.

Variegata. Green and white foliage, with purple flowers. Each 15c

GAILLARDIA.

Grandiflora. One of the showiest and most effective hardy plants, growing about two feet high, beginning to flower in June and continuing throughout the season. Large flowers of gorgeous coloring. The center is dark red-brown while the petals are variously marked with rings of scarlet, crimson, orange and vermilion, often combining all these colors in one flower. Each 15c

GYPSOPHILA PANICULATA, Baby's Breath.

A beautiful old-fashioned perennial, possessing a grace not found in any other perennial, and attracting the eye of every one. When in bloom it forms a symmetrical mass two to three feet in height and as much through, of minute white flowers, forming a beautiful gauze-like appearance. For cutting purposes it is exquisite, especially in combination with high colored flowers.

Each 15c, doz. \$1.50

GERMAN IRIS, Iris Germanica.

These are neat, robust, hardy, herbaceous, early-blooming plants, with large ornamental flowers of rich and elegantly blended colors, exquisitely striped with dark violet, purple or bronzed lines, upon a lighter ground.

Assorted, each 15c, doz. \$1.50

INCARVILLEA.

Delavayi. A fine hardy tuberous-rooted plant, very aptly called the hardy Gloxinia. Large rose-colored trumpet-shaped flowers, which last a long time, produced in clusters on stems 18 inches long. Should be protected with a covering of leaves during the winter. Each 25c

JAPANESE IRIS.

These magnificent Iris are among the most beautiful of our summer-flowering plants. They commence blooming about the middle of June and continue in bloom for five or six weeks. Many of these flowers are from 10 to 12 inches in diameter, and rival the orchids in their rich colorings and markings. While the Iris succeeds in almost any soil and under any conditions, they delight in a rich, deep, wet position, and should be abundantly supplied with manure and water.

Named varieties, each 25c, doz. \$2.50

Choice mixed varieties, each 15c, doz. \$1.50

HEMEROCALLIS FLAVA, Yellow Day Lily.

RUDBECKIA, Cone Flower.

"Golden Glow." A plant that should find a place in every garden. It is of fine habit and vigorous growth, attaining a height of, from four to six feet, and begins to flower early in the season and continues until late in the fall. The flowers are produced in enormous quantities on long stems, and as a cut flower for vases, etc., it has no equal. Each 15c

STOKESIA CYANEA, The Cornflower.

Stokes' Aster. A most charming and beautiful native hardy plant, which grows from 18 to 24 inches high, bearing freely from early in July until late in October its handsome lavender-blue centaurea-like blossoms, which measure from four to five inches across. It is of the easiest culture, succeeding in any open, sunny position, and not only is it desirable as a single plant in the hardy border, but it can also be used with fine effect in masses or beds of any size. Each 15c

HARDY CLIMBING PLANTS.
